

To whom it may concern,

Date: May 23, 2026

This is to certify that Vulnerability Assessment and Penetration Testing (VAPT) was conducted for the following web application: <https://www.assettiger.com/>

The assessment was performed using a combination of manual testing techniques and industry-standard security tools to identify potential vulnerabilities and security weaknesses. The testing methodology was aligned with OWASP Top 10 - 2025 and SANS Top 25 - 2025 security standards. Based on the assessment performed within the defined scope, the application demonstrated a satisfactory security posture against commonly known web application vulnerabilities and attack vectors.

The assessment activities were carried out by experienced security professionals holding globally recognized certifications including:

- **Offensive Security Certified Professional (OSCP)**
- **Practical Network Penetration Tester (PNPT)**
- **Licensed Penetration Tester Master**
- **Certified Penetration Testing Professional (CPENT)**
- **Certified Ethical Hacker (CEH)**

Security assessment performed by **Tribastion Technologies Pvt. Ltd.** a CERT-In Empanelled Information Security Auditing Organization operating in alignment with ISO 27001 and ISO 9001 certified processes and industry-recognized security assessment methodologies.

This certificate reflects the security posture of the application as observed during the assessment conducted from **April 06, 2026** to **April 15, 2026** and remains valid until **May 23, 2027**, subject to no changes being made to the application, infrastructure, or underlying components.

Sincerely,

Mukesh Dube  
Chief Executive Officer  
Tribastion Technologies Pvt. Ltd.
